Recommended Reads March 2015
This book is all about a boy who is writing about himself in a diary. This boy is called Tom Gates, he loves to draw and wind up his sister.

The school term starts in a good way. It starts to snow and he is glad because he loves to play in it with his mates. When he gets to school he doodles a big picture of Mr. Fullerman, but it gets covered up by the rest of the snow and Tom is glad because he doesn’t want to get told off because he is after a star pupil badge. (This badge lets you stay inside in the library at break and wants to catch up on his favourite comics).

I love this book because it’s funny. The best part about it is that when you are reading there are little doodles on at least every single page in this book. You won’t get bored of this because it has so many different sides to it that makes it so exciting to read.

I recommend this book to 10-16 year olds for both boys and girls. There are more books in the series and hopefully you will take my advice and go read these books.

T/SLE, Year 7.
Wow! This book is mind blowing and those of you that are very emotional readers you may burst out in tears. This book is very romantic in many different ways. It all begins with the fight against CANCER!

Hazel is a teenage girl forced out of her social life of friends and persuaded into a support group for teenagers.

Then one day Isaac a boy from the support group brings along a mysterious boy that Hazel can’t stop staring at and vice versa!

This book is for readers that like humour and romance.

I would recommend this book to people aged 11 to 19 years. The book is about a girl who has to face a big decision in her life where she has to make all different types of choices. I thought it was a good book because it shows that life might throw some tough decisions at you. What will her family say? What will her friends say? There are two more books to follow in the series that I am yet to read.

Year 7 T/JDN
I like this book because it is adventurous and exciting. I also really like the Harry Potter films. This book follows young wizards, Ron, Hermione and Harry in their third year at the magical school called Hogwarts. Murderer Sirius Black has escaped and searching for Harry...how far will he go to find him?
