

Renaissance myON

- Renaissance myON News delivers age-appropriate digital news articles for students, reporting on timely topics and current events.
- Articles include engaging multimedia – video, slideshows and photo galleries – to help students better understand the news.
- Subjects cover everything from space, science and endangered species to football and fashion, engaging even the most reluctant reader. It also includes maps showing where news events are occurring relative to the reader.
- Five daily myON News articles available in **English, French and Spanish**, at three reading levels, with embedded scaffolds to support struggling readers.
- Students have unlimited access to more than 9,000 books accessed by subject or keyword searching. Alternatively, they can browse the site until they find a book they want to read.
- Choose from a wide range of fiction genres, graphic novels, classics or non-fiction from the core collection.
- Interactive support for written text can be accessed - includes an online dictionary and adjustable audio functions.
