

Bike, scooter and skateboard policy

The Holgate Academy

February 2025

The Holgate Academy actively supports healthy options and as such we seek to support any student who wishes to cycle to school. To this end we do provide a secure bike storage area that is locked and monitored by CCTV. However, bikes are brought to the Academy **at your own risk.**

The Academy has clear rules and expectations about the safety of the bike and the safe use of the bike.

Under no circumstances **are e.scooters, skateboards or similar items allowed** in the Academy.

Students who wish to ride a bike to School must do so using a road legal bike and follow all Academy rules regarding the safe use of bikes on site.

On site: *(On site is the physical area of the grounds enclosed by the green fencing and accessed via the various green gates)*

- On arrival on site all riders must dismount and walk their bikes to the bike shed.
- All bikes must be stored in one of the two bike sheds.
- When departing the site, the bike must be walked until off site.
- All cyclists must exit via the Hillcrest gate once the bulk of students have left
- Under no circumstance should a student ride their bike on site.

Failure to comply with these requirements will result in a bike ban of between a week or longer and communication with parents/carers. Repeat offenders may be seen by the School Police Liaison Officer.

Students may only bring roadworthy bikes to the Academy.

Roadworthy (required)

- Working front and rear brakes. This is a legal requirement.
- Lights as appropriate to the time of the commute. This is a legal requirement.

Roadworthy (recommended)

- Safe tyres
- Reflectors
- Helmet
- Reflective jacket or bands.

Students who ride a bike to school that is not roadworthy (required) will be told not to bring the bike to school until it is made roadworthy and parents/carers will be informed.

The Academy reserves the right to conduct regular but random bike checks. The Academy also reserves the right to not allow a bike to be used if it is deemed illegal or unsafe. The bike will be kept safe until a parent/carer can collect it.

Safety First!

1. All pupils are recommended to wear a helmet and have suitable reflective material such as a jacket or sash when cycling.
2. All pupils are reminded that there is a legal requirement to have working lights on a bike between sunset and sunrise.
3. All pupils are reminded that bikes should be road worthy and that there is a legal requirement to have working breaks.
